

PRINTING Product parameter table

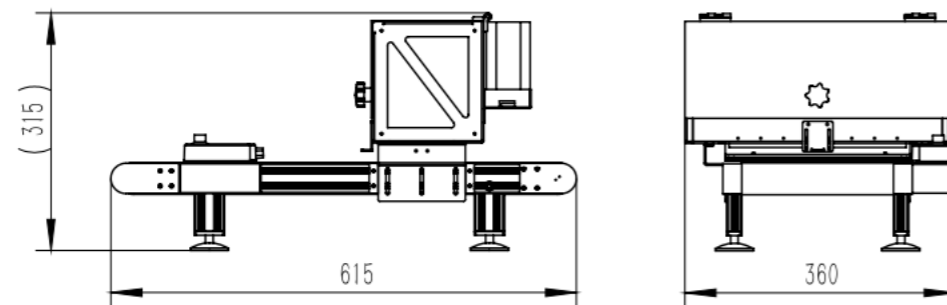

Model	XMS-218X
Printing type	Hot Press Foam Inkjet Technology
Printing method	Single Pass
Color Configuration	CMYK
Number of channels	4
Printing speed	20meters/minute (high speed),5 meters/minute (low speed)
Resolving power	600*300 dpi or 1200*300 dpi
Ink Type	Water-based Pigment Ink
Drying method	Natural drying
Paper feed width	220mm
Print Width	218mm
Print area	Customizable within a range of 220mm
Material thickness	0.1-150mm
Material type	Corrugated board, white board corrugated, paper bags, paper cup sheets, etc.
Material height	615 mm x 360 mm x 315 mm (L×W×H)
Power Supply	220V
Power	0.5KW
Ambient temperature	20-27°C
Ambient humidity	65-80% relative humidity
Correction guide bar	
Material issuing method	Manual material issuance
Production efficiency	2000/day
